

Motoric Spring Testing Machine KMEWin

Features:

- Nominal forces from 50N to 5000N
- Load cell with low sensitivity against eccentric forces
- Drive through backlash-free rolled ball screw
- Traverse through double precision linear guide
- Direct incremental length measuring system with a resolution of 0,25µm high speed up to 50 mm/s
- Fast force-displacement measurement through ESI-FPGA
- Integrated overload protection of the load cell
- On-the-fly force-displacement measurement: Measurement during loading and unloading
- Optional: Integrated in assembly line or stand-alone machine

Technical data:

- Depth	[mm]:	470
- Width	[mm]:	275
- Height	[mm]:	750
- Weight	[kg]:	120

Subject to technical modifications and errors.
